This summary is part of the full report and should be read in conjunction with it.

The test report only allows to be revised only within the report defined retention period unless further standard or the requirement was noticed

TRF No.: EN55014-1/2 b 1 of 9

This report is for the exclusive use of Intertek's Client and is provided pursuant to the agreement between Intertek and its Client. Intertek's responsibility and liability are limited to the terms and conditions of the agreement. Intertek assumes no liability to any party, other than to the Client in accordance with the agreement, for any loss, expense or damage occasioned by the use of this report. Only the Client is authorized to copy or distribute this report. Any use of the Intertek name or one of its marks for the sale or advertisement of the tested material, product or service must first be approved in writing by Intertek. The observations and test results referenced from this report are relevant only to the sample tested. This report by itself does not imply that the material, product, or service is or has ever been under an Intertek certification program.

Report No.: SZHH01091803-001

EMC Results Conclusion (with Justification)

RE: EMC Testing Pursuant to EMC Directive 2014/30/EU Performed On the

EXPOSED,

Model: BL-17500

We tested the EXPOSED, Model: BL-17500 to determine if it was in compliance with the relevant EN standards as marked on the EMC Verification Summary. We found that the unit met the requirement of EN 55014-1, EN55014-2 standards when tested as received.

The Model: BL-17501, BL-17600, BL-17601 are the same as the Model: BL-17500 in hardware aspect. The difference in model number serves as marketing strategy.

The production units are required to conform to the initial sample as received when the units are placed on the market.

Remark; Standards against which no testing has been conducted of the captioned model and the engineering judgement is stated as follows:

EN 55014-2: 1997 + A1: 2001 + A2: 2008

This product not contains electronic control circuitry. It is classified to Category I of the standard and therefore deemed to fulfil the relevant immunity requirements without testing.

LABORATORY MEASUREMENTS

Configuration Information

Equipment Under Test (EUT): EXPOSED

Model: BL-17500

Serial No.: Not Labelled

Support Equipment: N/A

Cables & Others: N/A

Adapter: N/A

Rating Voltage: DC 1.5V (1 x 1.5V AA Battery)

Model: BL-17500

Worst Case Operating Mode: Motor

Report No.: SZHH01091803-001

EN 55014-1 Radiated Scan

Used Test Equipment

Equipment No.	Equipment	Manufacturer	Model No.	Cal. Date	Due Date
SZ185-01	EMI Receiver	R&S	ESCI	23-Jan-16	23-Jan-17
SZ061-12	Biconilog Antenna	ETS	3142E	9-Sep-16	9-Sep-17
SZ188-01	Anechoic Chamber	ETS	RFD-F/A-100	16-Apr-16	16-Apr-18

Notes:

- 1. Peak detector quick scan is showed on the graph and final quasi-peak detector data is measured corresponding to relevant limit and recorded in the data table.
- 2. Frequency range scanned: 30MHz to 1000MHz.
- 3. Only emissions significantly above equipment noise floor are reported.
- 4. Uncertainty: ±4.8dB at a level of confidence of 95%.
